In reguard to Talkeetna becoming a home rule city. It would be nice to stop this befor we waste more time & money on something that will not pass anyway. This is an attempt by the vocal minority to rule the silent majority. The vast majority of people beside the names on the petition to incorperate are against this. I do not live in Talkeetna. I live at Mile 10 on the Spur road. To think that I would have the same city services that they have in Talkeetna if I wanted them, seem rather ludicrous I cant imajin the price if someone did. The boundries they prepose are to far reaching than the town actually is. We didn't want it or need it 15yrs ago when they tried this nor do we need or want it now. Please do the right thing & stop this foolishness

Mark J. Dolecek
