I oppose incorporation of Talkeetna, AK.

This town is not ready and can not support to have home rule. They are are too many amendments to the 1998 incorporation proposal will make hardships for alot of people that live here. The business that support this home rule should find ways to take care of all the people that come in the summers - with the Mat-Su-Borough help. The Borough has done a good job so far, but should listen to the people here in Talkeetna about some problems they have now.

There was alot of people that didn't see the DCRA's report and Borough's responsive brief and didn't see any yellow Public Notice filing that was changed to July 21, 00. The white Public Notice was left up with the old date. I know because someone told me - and I work away. Thank you.
