July 21st 00-
TALKEETNA-AK.

To The Local Boundary Commission Staff. - This is filed in Compliance with 3AAC-110.480.

I Oppose The Incorporating The Town And Lands Around Talkeetna, AK.

There is No way that the requirments need To Incorporate can be met, with out Millions of Dallors To comply with these requirments.

There is no way 738 Town people can Tax the people enough To come up with what is required for compliance To Incorporate

All people within the area that is wanted for this Corporating must be treated the same in line with what is required. so for instance - the people who live North of Talkeetna River Rail Road Bridge. who is going to pay for an automobile Bridge across the Talkeetna River To Service these people as required by Incorporating requirements??

This is only one thing not realized by most of the people in Talkeetna Lands Area.

Most People here believe that the way things have been going in the Past, roads - sewer systems etc. were All well Take Care.

Any New Control put upon us only Takes Away more of the freedom of which we still have. I've been here since 1950 - was still at That Time a Great Terratory for 8yrs. The a Great Free country. If only The New people could feel the freedom we had Then, They Then would under stand what is happening To them. They Are being Talked into Voteing Away The freedoms They still have". Sincerely.

FROM - Francis L Twig. Box 266 - Talkeetna, AK. 99676 - 1-907-733 2226
