MAP NOTES

This map was prepared by the Alaska Department of Commerce, Community, and Economic Development, Division of Community and Regional Affairs (Commerce) using funding from the Denali Commission – Transportation Program and the Initiative for Accelerated Infrastructure Development (IAID). The IAID is supported by grants from the Denali Commission, USDA Rural Development, Alaska Department of Transportation and Public Facilities and Commerce. Commerce contracted with Global Positioning Services, Inc. in August of 2009 to prepare the map.

This map should not be construed as a survey. On–site surveys should be conducted prior to engineering or construction. This map was compiled to meet horizontal and vertical accuracy in accordance with national map accuracy standards.

Property and utility information has been generated from readily available sources with limited accuracy checks. Property information is not intended to represent a title search of the Recorders Office record. Utility location is approximate and shows only the main lines. Generally, the information is current as of December 2009.

This map is based on photography acquired on August 27, 2009, at a nominal scale, of 1 in = 800 ft. Aero–Metric Anchorage prepared the orthophoto and topographic mapping. The topographic contours were prepared at two (2) foot intervals with index contours every ten (10) feet.

HORIZONTAL AND VERTICAL CONTROL

The horizontal and vertical control station for this digital map and orthophoto was an NGS OPUS solution for the BLM Brass Cap "USS 4078 L3 C4". The horizontal datum NAD 1983 coordinates for this Monument are North 64° 59' 40.72921" and West 150° 38' 08.85199". The Geoid 06 elevation for this station is 264.324 feet. The mapping of the Village of Manley Hot Springs has been adjusted to this control using high precision GPS methods.

This map projection is based upon NAD 83, ASP Zone 4 as expressed in US Survey Feet.
