Local Boundary Commission

Attention: Boundary Commission

We became permanent residents of Meyers Chuck in 1990 and have lived here since that time. We value our remote lifestyle and independence of attachment to a borough. However we understand the inevitability of belonging to a borough.

Our choice would be to belong to a Wrangell borough rather than a Ketchikan borough. We, along with other residents we have spoken with, feel our needs and relationships would be more appropriately met and served by Wrangell.

We hope that in making your decision you will consider the feelings and desires of this very special and unique community.

Thank you for your attention.

Sincerely,  
Shirley J. Lee  
Herbert J. Lee
