MAP NOTES

This map was prepared by the Aleutians East Borough (AEB) in cooperation with the Department of Community and Economic Development (CDED) using funding from the Coastal Impact Assistance Program, CDED Mini-Grant Program, Bureau of Indian Affairs Transportation Planning and funding from the Initiative for Accelerated Infrastructure Development (IAD). The IAD is supported by grants from the Bernal Commission, USDA Rural Development, Alaska Department of Transportation and Public Facilities and CDED. The Alaska Native Tribal Health Consortium provided extensive sanitation facility records. The AEB contracted with McClintock Land Associates in May of 2002 to prepare the map.

This map is based upon a digital orthophoto prepared to National Map Accuracy Standards from August 25, 2002 photography (nominal scale 1" = 600'). An orthophoto is an aerial photo which has been corrected, by rectification to ground control stations, to remove distortions and warpage, generally caused by the ground topography and the aircrafts tilt and trim.

Property and utility information has been generated from readily available sources with limited accuracy checks. Property information does not include a thorough search of Recorders Office records. Utility location is particularly imprecise and shows only the main lines as the service lines have been omitted for clarity. Generally, the information is current as of January 2003.

This map should not be construed as a survey, on-site surveys should be conducted prior to engineering and/or construction.

COORDINATE SYSTEMS

Horizontal Datum - NAD 83 Alaska State Plane Zone 6(FPSZ)
based on CORS STATION "AY 2" OLD BAY
Vertical Datum - based on prior Topographic / Bathymetric survey conducted by Peratrovich, Nottingham & Drage, Inc.(PND) on 08-08-02.

TOPOGRAPHIC & PLANIMETRIC DATA

All topographic and planimetric data was collected utilizing stereo photography synonymous with the photography used for the orthophoto production. Topographic data prepared to National Map Accuracy Standards for a 2' contour interval. Topographic data located in densely vegetated areas should be considered less accurate and may not meet those standards aforementioned.

SCALE: 1"=100'
Date of Photography: August 25, 2002 SCALE IN FEET
Magnetic Declination computed by U.S.G.S. Geomag Program using AK-2000.COF model as of March 27, 2003.
