	Public Building		Underground Electric
	ANCSA 17(b) Easement		Force Main
	(1994) Flood Elev. 436.12'		Sewer Line
	(Based on this Map)		Water Line

MAP NOTES
 This map was prepared by the Alaska Department of Commerce, Community, and Economic Development, Division of Community and Regional Affairs (Commerce) using funding from Federal Emergency Management Agency and US Department of the Interior Bureau of Indian Affairs. Commerce contracted with Global Positioning Services, Inc. in June of 2009 to prepare the map.

This map should not be construed as a survey. On-site surveys should be conducted prior to engineering or construction. This map was compiled to meet horizontal and vertical accuracy in accordance with national map accuracy standards.

Property and utility information has been generated from readily available sources with limited accuracy checks. Property information is not intended to represent a title search of the Recorder's Office records. Utility location is approximate and shows only the main lines. Generally, the information is current as of December 2009. ANHC provided sanitation facility records.

This map is based on photography acquired on July 17, 2009, at a nominal scale, of 1 in = 800 ft. Aero-Metric Anchorage prepared the orthophoto and topographic mapping. The topographic contours were prepared at two (2) foot intervals with index contours every ten (10) feet.

HORIZONTAL AND VERTICAL CONTROL
 The horizontal and vertical control station for this digital map and orthophoto was an NGS OPUS solution for R&M Monument "AET 1". The horizontal datum NAD 1983 coordinates for this monument are North 66° 33' 00.75326" and West 152° 37' 48.74471". The Geoid 06 elevation for this station is 435.30 feet.

The mapping of the City of Allakaket has been adjusted to this control using high-precision GPS methods and the adjusted coordinates and elevation for ANCSA 14(c) Monument "L2A, L2B, BLK 1", were calculated to establish a local control reference. The NAD 1983 coordinates for this monument are North 66° 33' 52.9672" and West 152° 38' 36.2930" and the elevation is 426.14 feet.

This map projection is based upon NAD 83, ASP Zone 5 as expressed in US Survey Feet.

FLOOD NOTES
 The US Army Corps of Engineers (USACE) report "Alaska Communities Flood Hazard Data 2007", has a published flood of record which occurred in 1994 with a flood elevation of 497' (436.12 feet based upon this maps vertical control). A high water mark was placed on a power pole at the northeast corner of 4 St. & Third Ave. with the mark at the 497' elevation.
