MAP NOTES

This map was prepared by the Alaska Department of Commerce, Community, and Economic Development, Division of Community and Regional Affairs (Commerce) using funding from the Initiative for Accelerated Infrastructure Development (IAD). The IAD is supported by grants from the Denali Commission, USDA Rural Development, Alaska Department of Transportation and Public Facilities and Commerce. Commerce contracted with Global Positioning Services, Inc. in May of 2010 to prepare the map.

This map should not be construed as a survey. On-site surveys should be conducted prior to engineering or construction. This map was compiled to meet horizontal and vertical accuracy in accordance with national map accuracy standards.

Property and utility information has been generated from readily available sources with limited accuracy checks. Property information is not intended to represent a title search of the Records Office record. Utility location is approximate and shows only the main lines. Generally, the information is current as of December 2010. ANTHC provided sanitation facility records.

This map is based on photography acquired on June 5, 2010, at a nominal scale of 1 in = 800 ft. Aero-Metric Anchorage prepared the orthophoto and topographic mapping. The topographic contours were prepared at two (2) foot intervals with index contours every ten (10) feet.

HORIZONTAL AND VERTICAL CONTROL
The horizontal and vertical control station for this digital map and orthophoto was an NGS OPUS station for the Rebar with Plastic Cap "S3205". The horizontal datum NAD 1983 coordinates for this Monument are North 66° 38' 55.8513" and West 143° 43' 36.7973". The Geoid 06 elevation for this station is 548.34 feet. The mapping of the Village of Chalkyitsik has been adjusted to this control using high precision GPS methods.

This map projection is based upon NAD 83, ASP Zone 2 as expressed in US Survey Feet.
