

MUNICIPAL BOUNDARY MAP COLD BAY

SHEET 2 OF 2

55° 12' N 162° 42' W Coastal Community

This project was supported by Bottomfish Community Development Program funds administered by the Alaska Department of Community and Regional Affairs.

Note: These maps have been prepared from uncontrolled aerial photographs. Scale is approximate and minor distortion may exist. Property and utility information has been generalized from many sources and may contain minor inconsistencies. These maps should not be construed as surveys. On-site investigations should be conducted prior to construction.

Community Map—Maps are useful in illustrating land use patterns, land ownership, location of utilities, and also in planning for future city improvements. These maps can be prepared by surveying the land and/or by enlarging aerial photographs.

The Regional Map shown here was prepared from National Oceanographic and Atmospheric Administration aerial photographs taken in 1962 at a height of 18,250 feet, and enlarged to a scale of 1:30,000 (1"=2,500'). This map has been used to display the present utilities, public facilities, and residential and commercial development. In addition, other information has been portrayed which will aid in evaluating the area for new construction and city expansion. The terrain surrounding the Cold Bay community is characterized by low rolling hills, wet tundra, and numerous small ponds and lakes. Frosty peak dominates the view directly to the south.

This kind of data is very important in developing plans for community growth and expansion. It is useful in gaining an understanding of some of the natural and man-made features that affect the community, including flood hazards, erosion, source of water supply and location of waste disposal sites.

This portion of map was deleted due to lack of adequate coverage in the original photography.

Land use (from field survey, Nov., 1981)

- Residential
- Public
- Public use area
- Commercial
- Approximate location

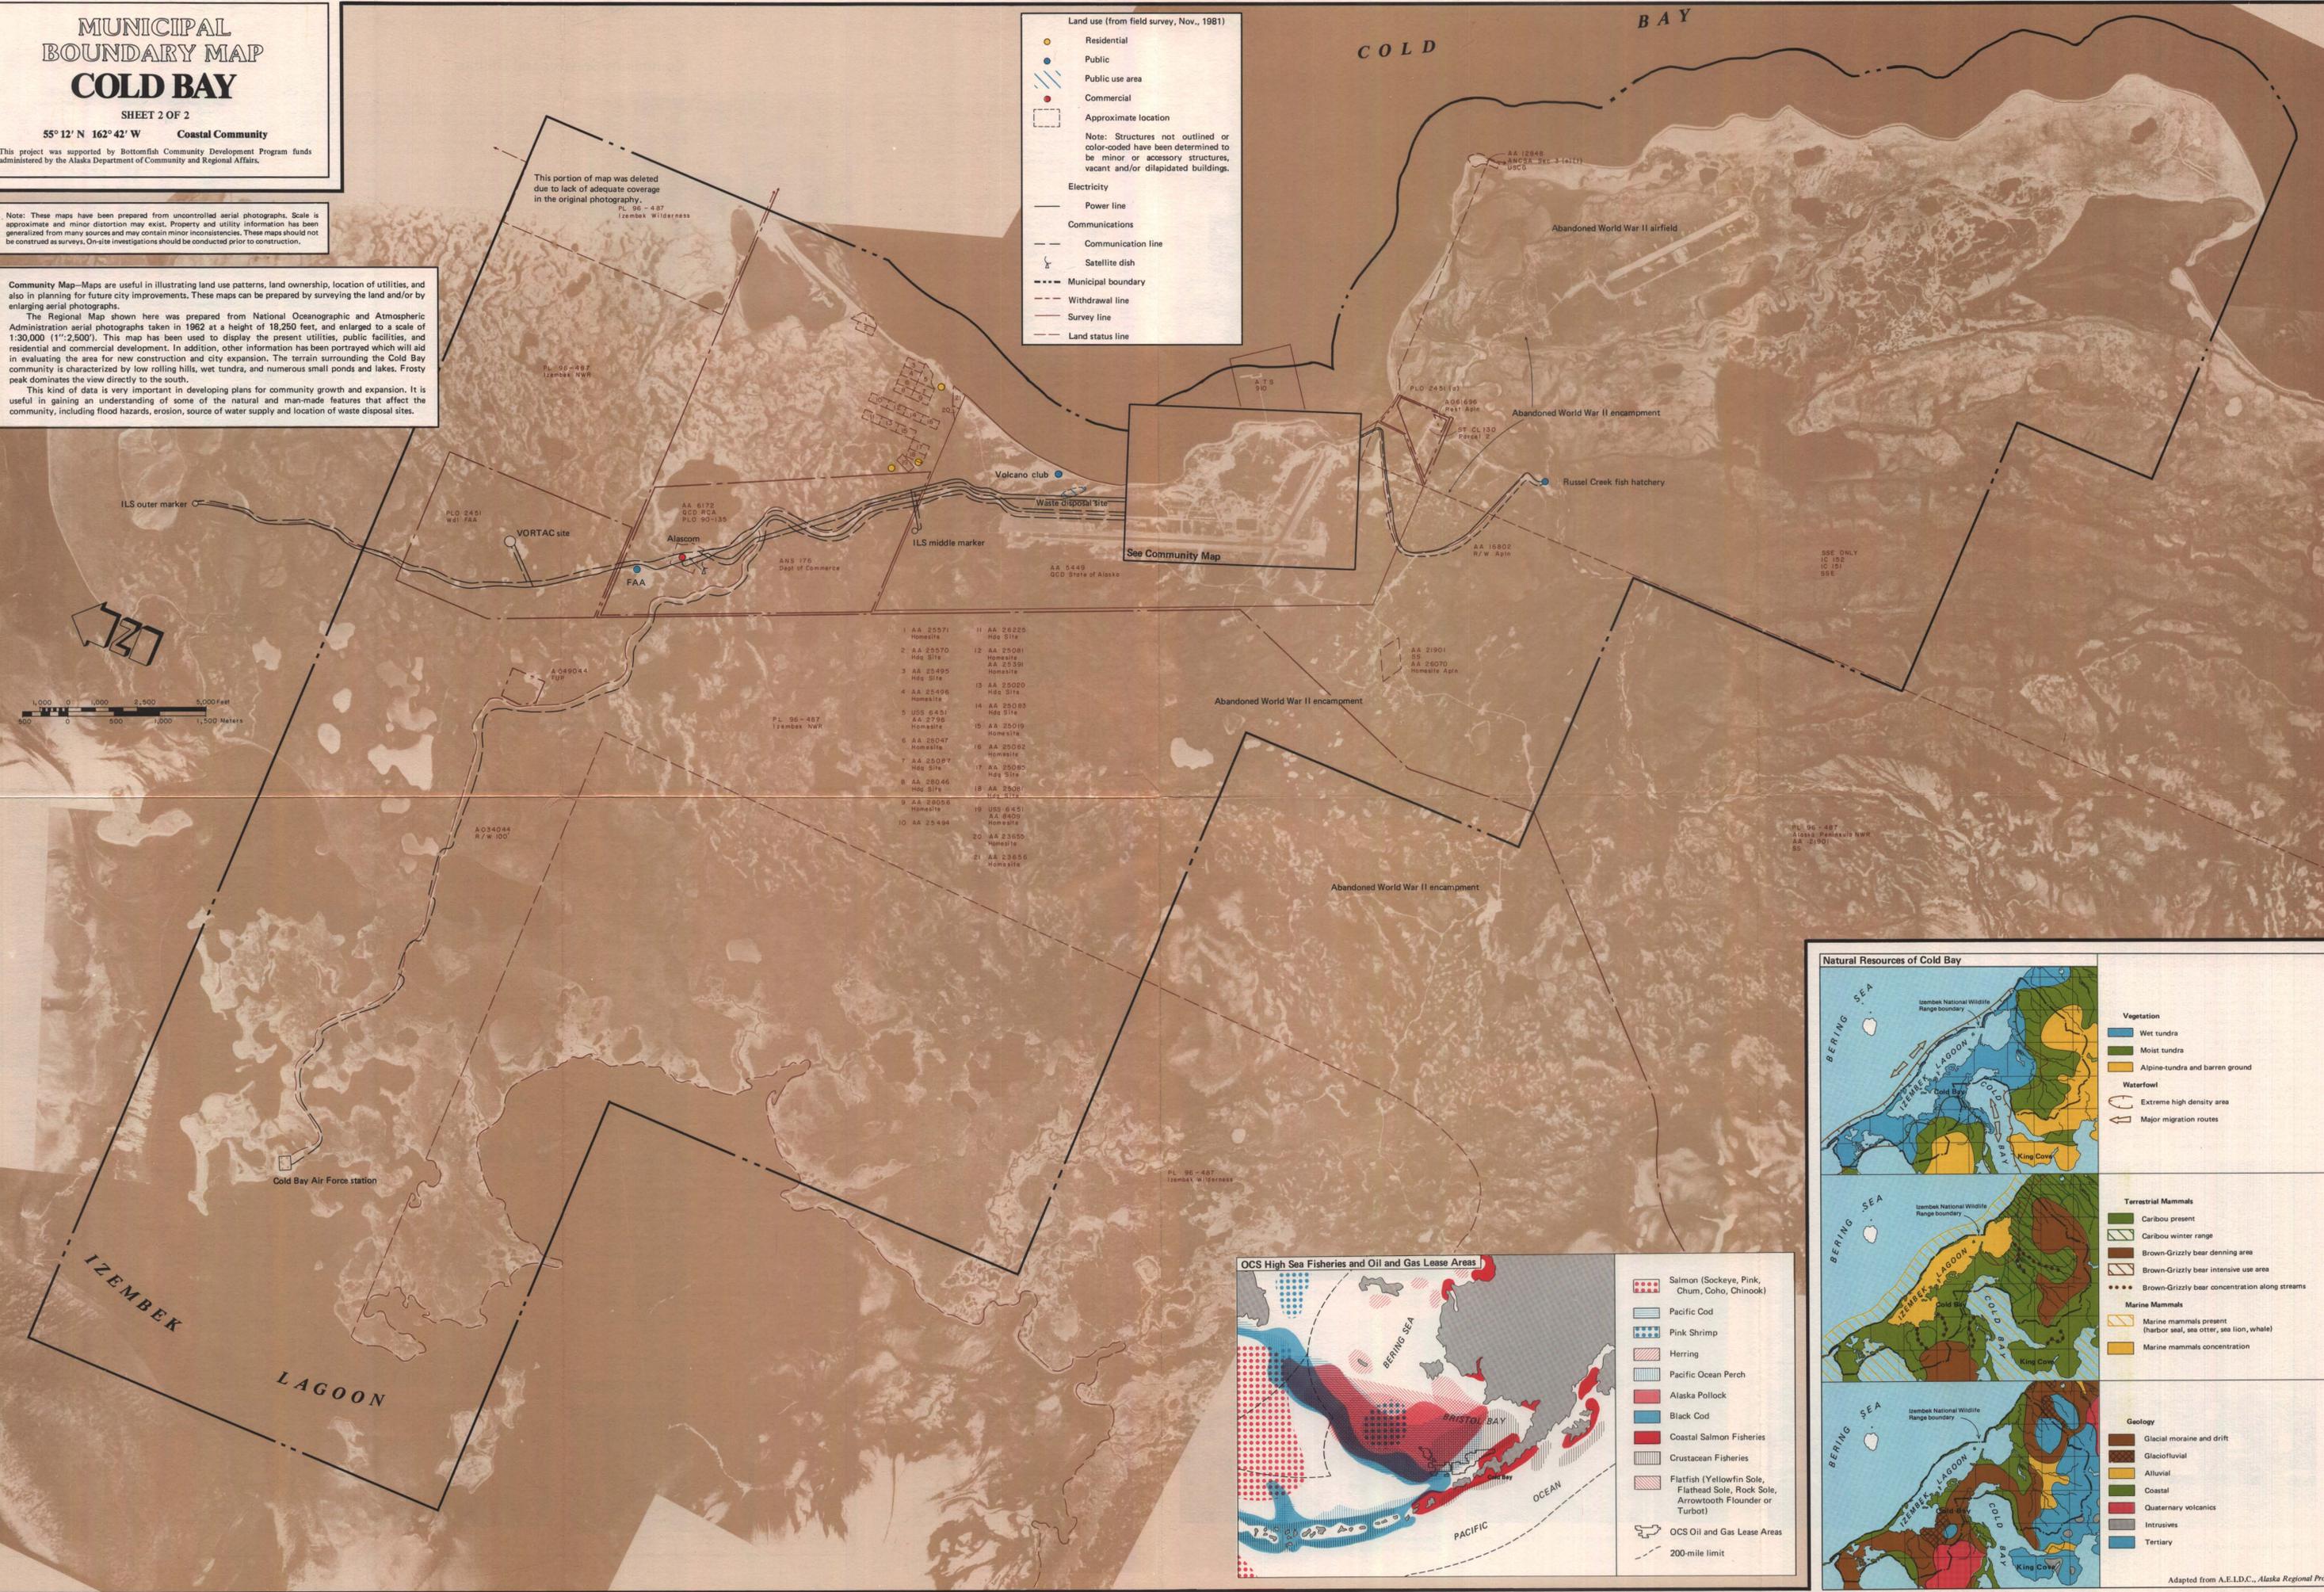

Note: Structures not outlined or color-coded have been determined to be minor or accessory structures, vacant and/or dilapidated buildings.

Electricity

- Power line
- Communications
- Communication line
- Satellite dish

Municipal boundary

- Withdrawal line
- Survey line
- Land status line
