21. Alascom Tower

**MAP NOTES**

This map was prepared by the Copper River Basin Regional Housing Authority (CRBHA) in cooperation with the Alaska Department of Commerce, Community and Economic Development (Commerce), using funding from Copper Valley Development Association and funding from the Initiative for Accelerated Infrastructure Development (IAID). The IAID is supported by grants from the Denali Commission, USDA Rural Development, Alaska Department of Transportation and Public Facilities and Commerce. The Copper River Basin Regional Housing Authority contracted with McClintock Land Associates, Inc. in May of 2005 to prepare the map.

This map was compiled to meet horizontal and vertical accuracy in accordance with national map accuracy standards.

Property and utility information has been generated from readily available sources with limited accuracy checks. Property information is not intended to represent a title search of the Recorder's Office record. Utility location is approximate and shows only the main lines. Generally, the information is current as of December 2005.

This map is based on photography acquired on June 15, 2005 at a nominal scale of 1 in = 800 ft. Orthophotos and topographic mapping were prepared by McClintock Land Associates.

The orthophoto is an aerial photo which has been corrected, by rectification to ground control stations, to remove distortions and warpage due to ground topography and aircraft tilt and trim.

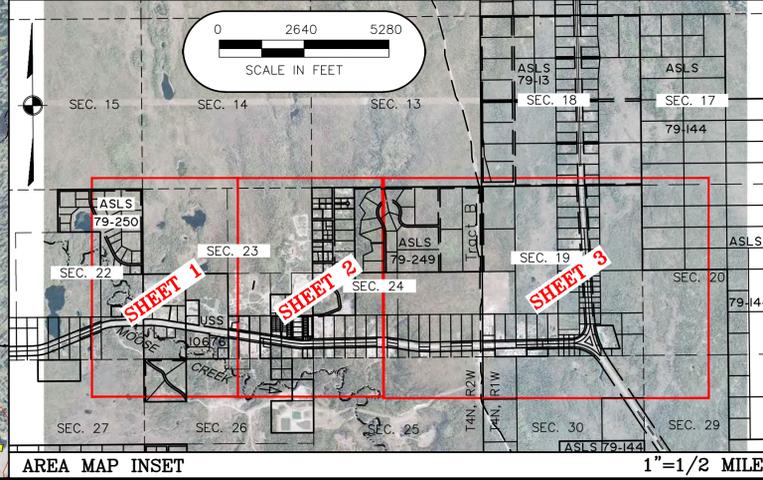

**HORIZONTAL AND VERTICAL CONTROL**  
 The horizontal coordinate system used is NAD 83 Alaska State Plane Zone 3 U.S. feet (83ASP23). National Geodetic Survey (NGS) CORS station "GNA" was used for horizontal control using the current published position (Epoch date 2003). The vertical datum is NAVD 88 (feet). The control point for the vertical was NGS "T1-station N-26" located in Glennallen about 30 meters south of the intersection of the Glenn Highway and the Richardson Highway. The final position for control point "N-26" is as follows:  
 NAD 83 ASP23(CORS 96)(U.S. Feet) Northing: 1730180.357' Easting: 2962661.829' Elevation: 1517.70'

The contours were prepared at two (2) foot contour intervals with index contours every ten (10) feet. Two (2) foot contours have been omitted in steep areas, leaving only the index contours, for clarity.

**FLOOD DATA:** No flood data on record.

**TOPO AND PLANIMETRIC LEGEND**

	Culvert
	Marsh
	Edge/Thread of Water
	Edge of Road/Area
	Trail
	Fence
	Guardrail
