MAP NOTES
 This map was prepared by the Tlingit-Haida Regional Housing Authority in cooperation with the Alaska Department of Commerce, Community and Economic Development (Commerce) using funding from Housing and Urban Development, The Alaska Native Tribal Health Consortium, (City of Hoonah) and funding from the Initiative for Accelerated Infrastructure Development (IAID). The IAID is supported by grants from the Denali Commission, USDA Rural Development, Alaska Department of Transportation and Public Facilities and Commerce. The Tlingit-Haida Regional Housing Authority contracted with Global Positioning Services, Inc. in May of 2004 to prepare this map.

This map should not be construed as a survey. On-site surveys should be conducted prior to engineering or construction.

This map was compiled to meet horizontal and vertical accuracy in accordance with national map accuracy standards.

Property and utility information has been generated from readily available sources with limited accuracy checks. Property information is not intended to represent a title search of the Recorder's Office record. Utility location is approximate and shows only the main lines as the service lines have been omitted for clarity. Generally, the information is current as of December 2004.

The Alaska Native Tribal Health Consortium provided sanitation facility records.

This map is based on photography acquired on May 21, 2004, at a nominal scale, of 1 in = 800 ft. AeroMap U.S. prepared the orthophoto and topographic mapping. The orthophoto is an aerial photo which has been corrected by rectification to ground control stations, to remove distortions and warp due to ground topography and aircraft tilt and trim.

HORIZONTAL AND VERTICAL CONTROL
 The control monument for the digital orthophoto was "NGS Long 1923". Published horizontal datum NAD 1983 coordinates for this monument are North 58°05'47.48250" and West 135°28'35.63511". The vertical datum used was "Gustavus 2 CORS ARP" the NAD-83 elevation for this monument is 22.86 ft. above mean high water (MHW).

The City of Hoonah has been adjusted to this control using high-precision GPS methods and the adjusted coordinates and elevation for U.S.S. No. 4539, Lot 1B Cor. 4 was calculated to establish a local control reference. The NAD 83 coordinates for this monument are North 58° 06' 28.6205" and West 135° 26' 12.7899" and the elevation is 63.31 ft. above mean high water (MHW).

The contours were prepared at two (2) foot contour intervals with index contours every ten (10) feet. Two foot contours have been omitted in steep areas, leaving the index contours for clarity.

Areas denoting vegetation cover on the ground should be considered less accurate and not be used for engineering purposes until field checked in accordance with ASPRS standards.
