

MAP NOTES

This map was prepared by the Bristol Bay Native Association (BBNA) in cooperation with the Alaska Department of Community and Economic Development (DCED) using funding from the Bristol Bay Housing Authority, U.S. Bureau of Indian Affairs, Alaska Coastal Management Program, and funding from the Initiative for Accelerated Infrastructure Development (IAID). The IAID is supported by grants from the Alaska Native Tribal Health Consortium, Denali Commission, USDA Rural Development, Alaska Department of Transportation and Public Facilities and DCED. The Bristol Bay Native Association contracted with Bristol Environmental & Engineering Services in June of 2003 to prepare the map. McClintock Land Associates Inc. was subcontracted by Bristol Environmental and Engineering Corporation to perform aerial photography and control surveying.

This map is based upon a digital orthophoto prepared to National Map Accuracy Standards from July 13, 2003 photography (nominal scale 1" = 800'). An orthophoto is an aerial photo which has been corrected, by rectification to ground control stations, to remove aircraft distortions and warpage. The distortions are generally caused by topography and the aircrafts tilt and trim.

Property and utility information has been generated from readily available sources with limited accuracy checks. Property information is not intended to represent a comprehensive title search of Records Office records. Utility locations are a approximate and show only the main lines. Generally, the information is current as of July, 2003.

This map should not be construed as a survey. On-site surveys should be conducted prior to engineering and/or construction.

COORDINATE SYSTEMS

Horizontal Datum-NAD 83 Alaska State Plane Zone 6 (USS FEET)
 based on TRI STATION "Dillingham As Mt."
 Vertical Datum-NAVD 88, based on CORS tie to "Kenai" & "Cold Bay" & "Kodiak"
 Magnetic Declination computed by U.S.G.S. Geomag program using IGRF2000 model as of January, 2004.

TOPOGRAPHIC & PLANIMETRIC DATA

All topographic and planimetric data was collected utilizing stereo photography correlated with the photography used for the orthophoto production. Topographic data was prepared to National Map Accuracy Standards for a 2 foot contour interval. Topographic data located in densely vegetated areas should be considered less accurate and may not meet those standards aforementioned.

- SITE LEGEND**
1. B & B Bobby Larson
 2. B & B Larry Lee
 3. Periodic Flooding (Marked)
 4. Erosion
 5. Drainage Problem
 6. Seepage (Snow, rain collects and flows to Number (6) Seepage around the school causes flooding in the basement of the school.)
 7. New Storage for Pumper Truck
 8. Fire Dept.
 9. Old Landfill
 10. Power Plant
 11. Gravel Pit
 12. B & B (McCannas)
 13. Recycling Center
 14. Contaminated Site (Cleaned)-Oil Spill
 15. Fish Areas
 16. Boat Landing
 17. Berry Picking Spots
 18. Picnic Area
 19. Herb and Plants (Edible)
 20. Proposed/New Clinic Site
 21. Well Watering Point (Closed and Moved)
 22. B&B Roger Skogen
