

# COMMUNITY MAP LARSEN BAY

57°32'N 153°58'W Coastal Community

The preparation of this report was financed in part by funds from the Alaska Coastal Management Program and the Office of Coastal Zone Management, National Oceanic and Atmospheric Administration, U.S. Department of Commerce and the Alaska Department of Transportation and Public Facilities, administered by the Division of Community Planning, Alaska Department of Community and Regional Affairs, and the Kodiak Island Borough, August, 1981.

Note: These maps have been prepared from uncontrolled aerial photographs. Scale is approximate and minor distortion may exist. Property and utility information has been generalized from many sources and may contain minor inconsistencies. These maps should not be construed as surveys. On-site investigations should be conducted prior to construction.

Land use (from field survey, Apr., 1981)

- Residential
- Public
- Public use area
- Commercial

Indicates approximate area

Note: Structures not outlined or color-coded have been determined to be minor accessory structures, vacant and/or dilapidated buildings.

Electricity

- Generator
- Water
- Water line
- Hydrant
- Sewer
- Sewer line/Manhole
- Septic tank
- Phone
- Television/Telephone satellite receiver

Community Map—Maps are useful in illustrating land use patterns, land ownership, location of utilities, and also in planning for future village improvements. These maps can be prepared by surveying the land and/or by enlarging aerial photographs.

The Community Map shown here was prepared from a Public Health Service aerial photograph taken in 1976 at a height of 2,400 feet, and enlarged to a scale of 1:2,400 (1 in. = 200 ft.). This map has been used to display the present utilities, public facilities, and residential and commercial development. In addition, other information has been portrayed which will aid in evaluating the area for new construction and village expansion.

The Regional Map, prepared from a 1974 North Pacific Aerial Surveys photograph, taken at an elevation of 38,000 feet and printed at a scale of 1:16,800 (1 in. = 1,400 ft.), clearly shows the community and the surrounding area. The map shows that the village is located on a small bay, surrounded by steep slopes. The surrounding area is characterized by high brush and grasses with scattered trees. Larsen Bay is completely surrounded by the Kodiak National Wildlife Refuge.

This kind of data is very important in developing plans for community growth and expansion. It is useful in gaining an understanding of some of the natural and man-made features that affect the community, including flood hazards, erosion, source of water supply and location of waste disposal sites.

### Natural Resources of Larsen Bay

**Geology**

- Quaternary Deposits
- Pliocene Rocks
- Oligocene Rocks
- Eocene and Oligocene Marine Rocks
- Lower Tertiary Rocks
- Triassic Rocks
- Tertiary and Cretaceous Granitic Rocks
- Cretaceous and Upper Jurassic Rocks
- Faults

**Fisheries**

- King, Dungeness, Tanner Crab Fishing Areas
- Shrimp Fishing Areas
- Halibut Fishing Areas
- Salmon Fishing Areas

**Vegetation Types**

- Moist/Wet Tundra
- Alpine Tundra
- Coastal Western Hemlock
- High Brush

**Marine Mammals, Birds, Terrestrial Mammals**

- Stellar Sea Lion Areas
- Harbor Seal Areas
- Fur Seal Sightings
- Sea Otter Areas
- Marine Bird Colonies
- Deer High Density Areas
- Elk High Density Areas
- Brown Bear High Density Areas

Adapted from U.S. Department of Interior, 1980. Western Gulf of Alaska-Kodiak; Draft Environmental Statement

1. Water treatment plant
2. Municipal garage
3. Cannery complex
4. Infiltration gallery
5. Community hall
6. Clinic and future post office
7. New school
8. Old school
9. Recreation center (Tribal council)
10. Preschool (Tribal council)
11. Nondenominational church
12. State garage

**City of Larsen Bay Municipal Boundary**

The description of the municipal boundaries approved by the State is as follows:

Beginning at the SW corner of Section 36, un-surveyed T30S, R30W, Seward Meridian, Alaska; thence East to the SE corner of Section 32, T30S, R29W; thence North to the point where the East boundary of Section 29, T30S, R29W, intersects with the mean low water line of Uyak Bay; thence in a Northwesterly direction to the center of Section 29, T30S, R29W; thence North to a point which intersects with the mean low water line of Uyak Bay; thence Northwesterly along the mean low water line of Uyak Bay to the point where the mean low water line intersects with the East-West center-line of Section 20, T30S, R29W; thence West to the NW corner of the SW¼ of Section 20, T30S, R29W; thence South to the SW corner of Section 20, T30S, R29W; thence West to the NW corner of the NE¼ of Section 26, T30S, R30W; thence South to the SW corner of the SE¼ of Section 26, T30S, R30W; thence East to the SE corner of the SE¼ of Section 26, T30S, R30W; thence South to the point of beginning, containing 6.6 square miles more or less.
