

Community Map NONDALTON

59°58'N 154°51'W Elevation 250'

The preparation of this document was financed by a special legislative appropriation for the Department of Community and Regional Affairs, administered by the Division of Community Planning.

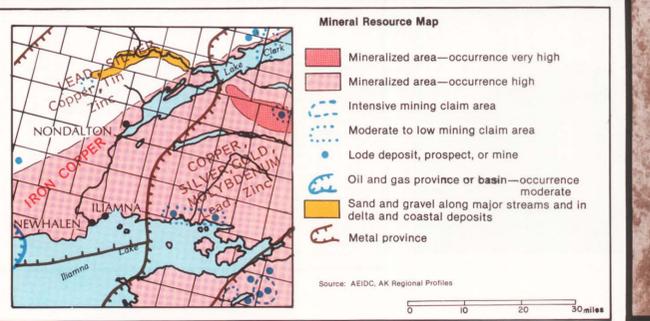

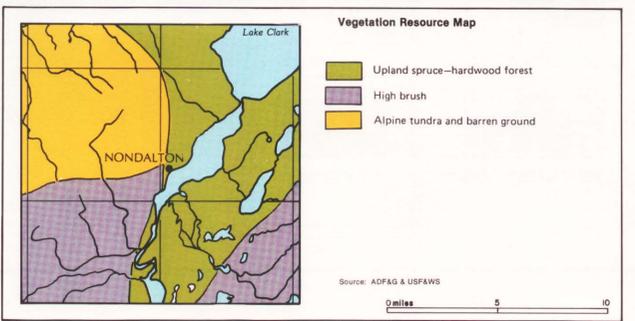

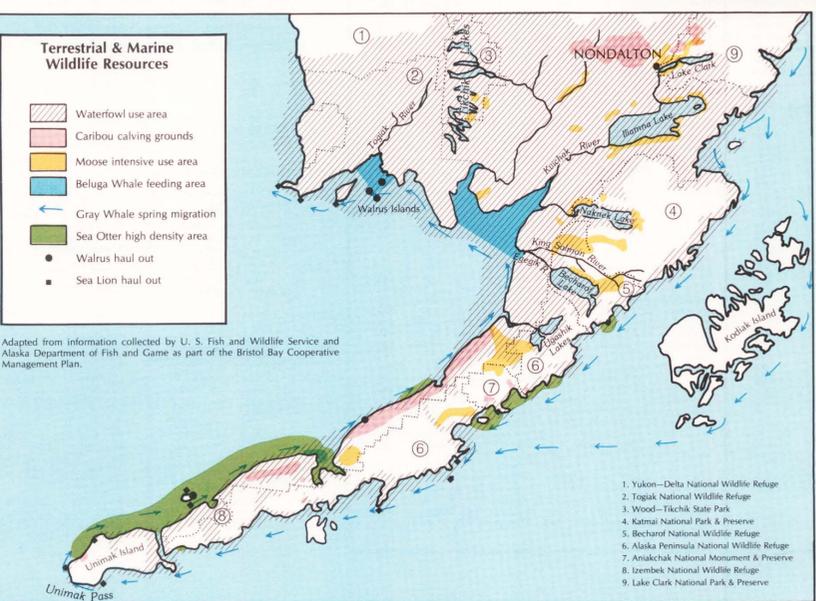

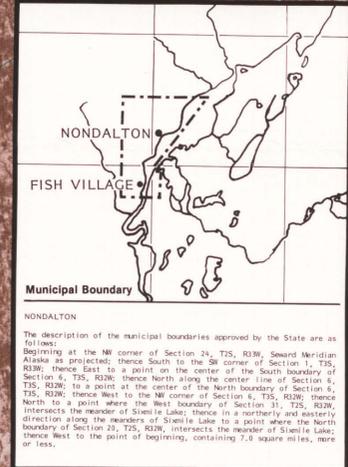

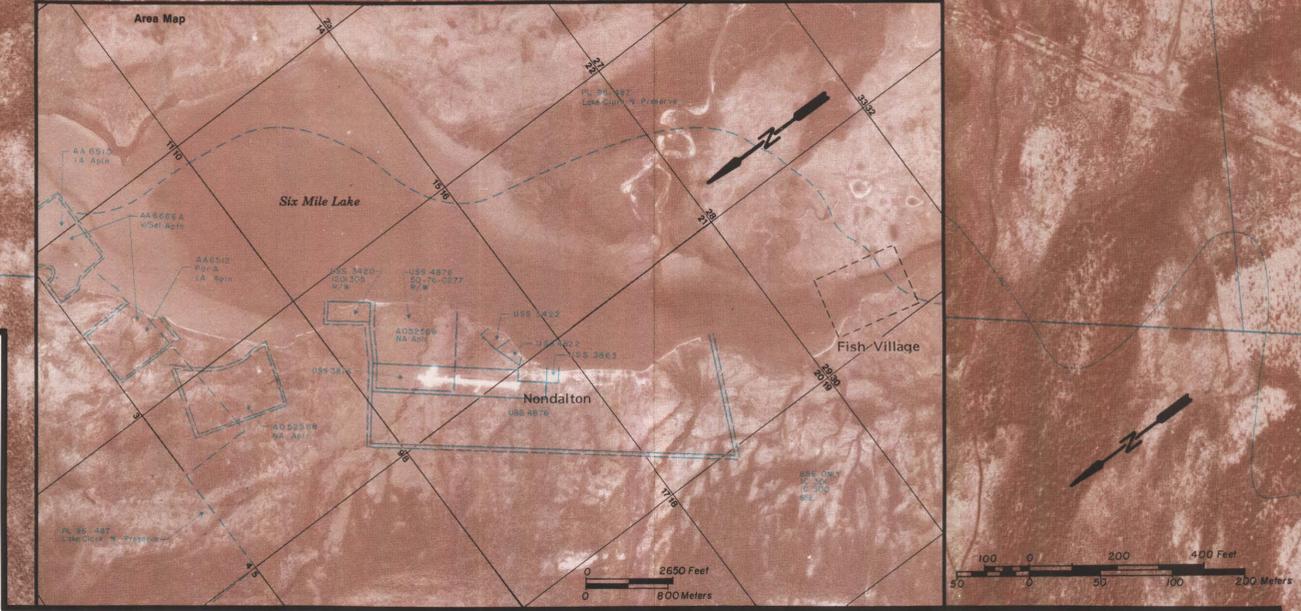

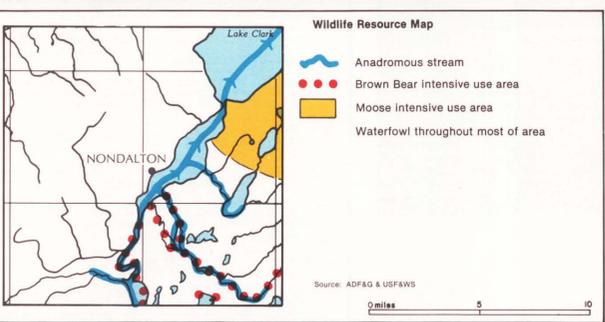

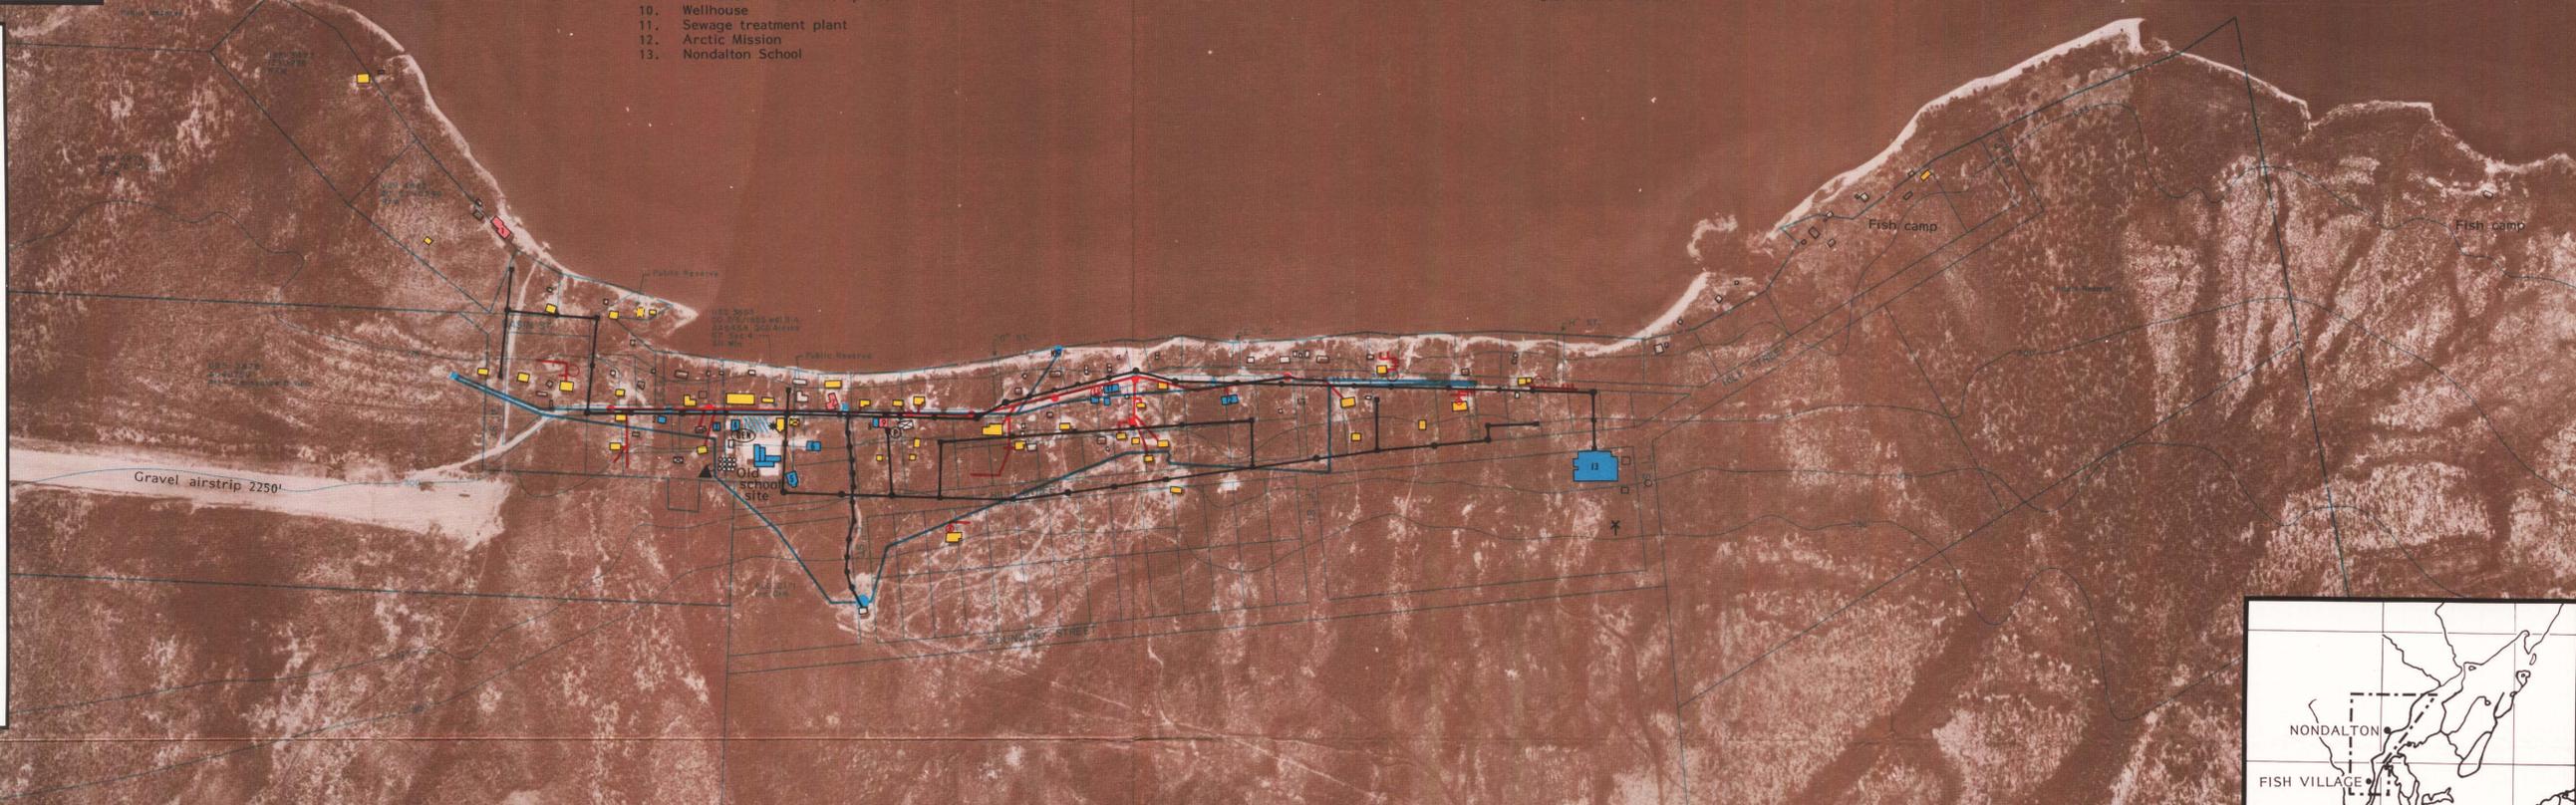

Note: These maps have been prepared from uncontrolled aerial photographs. Scale is approximate and minor distortion may exist. Property and utility information has been generalized from many sources and may contain minor inconsistencies. These maps should not be construed as surveys. On-site investigations should be conducted prior to construction.

Community Map The profile maps are useful in illustrating land use patterns, land status, location of power lines, water resources, waste disposal sites, and public facilities. They also provide an understanding of some of the natural features and hazards that affect the community. This information is very important in planning for community improvements and expansion.

The Community Map shown here was prepared from an aerial photograph taken in 1962 by BLM at a height of 1500 feet and enlarged to a scale of 1:2400 (1" = 200'). The Area Map was taken in 1965 by BLM at a height of 7800 feet and reproduced at a scale of 1"=2650'
