3. Russian Orthodox church
4. Post office
5. Community hall/Health clinic
6. Pilot Point School
7. Peninsula Airways
8. Grietchen Air Taxi

Community Map The profile maps are useful in illustrating land use patterns, land status, location of power lines, water resources, waste disposal sites, and public facilities. They also provide an understanding of some of the natural features and hazards that affect the community. This information is very important in planning for community improvements and expansion.

The Community Map shown here was prepared from an aerial photograph taken in 1974 by BLM at a height of 8400 feet and enlarged to a scale of 1:2400 (1" = 200'). The Area Map was prepared from the same photo and reproduced at a scale of 1:16800 (1" = 1400').

Note: These maps have been prepared from uncontrolled aerial photographs. Scale is approximate and minor distortion may exist. Property and utility information has been generalized from many sources and may contain minor inconsistencies. These maps should not be construed as surveys. On-site investigations should be conducted prior to construction.
