

LAKE CLARK

MAP NOTES

This map was prepared by the Lake and Peninsula Borough in cooperation with the Alaska Department of Community and Economic Development (DCEd) using funding from the Alaska Coastal Management Program, U.S. Bureau of Indian Affairs Transportation Planning, and funding from the Initiative for Accelerated Infrastructure Development (AIID). The AIID is supported by grants from the Denali Commission, USDA Rural Development, Alaska Department of Transportation and Public Facilities and DCEd. The Lake and Peninsula Borough contracted with Global Positioning Services, Inc. in June of 2003 to prepare the map.

This map should not be construed as a survey. On-site surveys should be conducted prior to engineering or construction.

This map was compiled to meet horizontal and vertical accuracy in accordance with national map accuracy standards.

Property and utility information has been generated from readily available sources with limited accuracy checks. Property information is not intended to represent a title search of the Recorder's Office record. Utility location is approximate and shows only the main lines as the service lines have been omitted for clarity. Generally, the information is current as of December 2003.

The Alaska Native Tribal Health Consortium provided sanitation facility records.

This map is based on photography acquired on August 17, 2002, at a nominal scale of 1 in = 800 ft.

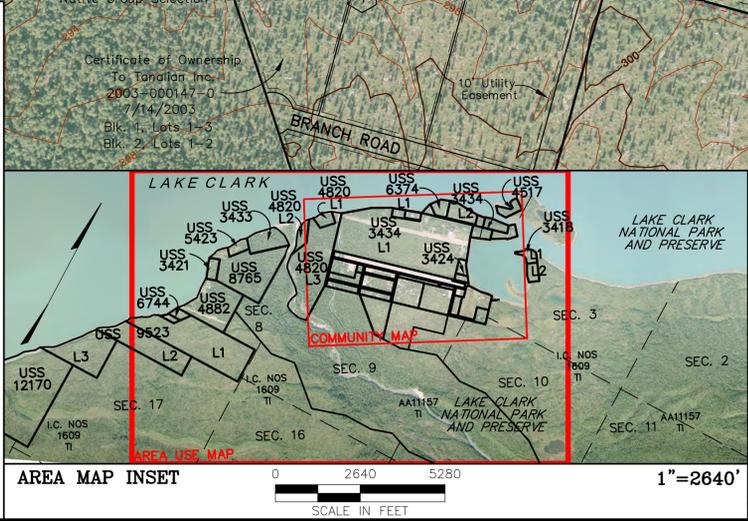

Aeromap U.S. prepared the Orthophoto and topographic mapping. The orthophoto is an aerial photo which has been corrected, by rectification to ground control stations, to remove distortions and warpage due to ground topography and aircraft tilt and trim.

HORIZONTAL AND VERTICAL CONTROL

The control monument for the digital orthophoto was U.S.C.G. ILLIAMA EAST BASE. Published horizontal datum NAD 1983 coordinates for this monument are North 59° 45' 47.81000" and West 154° 49' 14.52413". The vertical datum NGVD 1929 for this monument is 117 feet above mean high water (MHW).

The village of Port Alsworth has been adjusted to this control using high-precision GPS methods and the adjusted coordinates and elevation for WCMC 5, Lot 2, USS 6374 were calculated to establish a local control reference. The NAD 1983 coordinates for this monument are North 60° 11' 59.5800" and West 154° 18' 27.8949" and the NGVD 1929 elevation is 287.57 feet above mean high water.

The contours were prepared at two (2) foot contour intervals with index contours every ten (10) feet.
