MAP NOTES

This map was prepared by the Aleutian Pribilof Islands Association in cooperation with the Alaska Department of Commerce, Community and Economic Development (Commerce) using funding from the Aleutian Pribilof Islands Association, the Department of the Interior Bureau of Indian Affairs-Firewise Program, the City of St. Paul, the Central Bering Sea Fishermen's Association and funding from the Initiative for Accelerated Infrastructure Development (IAID). The IAID is supported by grants from the Denali Commission, USDA Rural Development, Alaska Department of Transportation and Public Facilities and Commerce. The Aleutian Pribilof Islands Association contracted with Global Positioning Services, Inc. in May of 2005 to prepare the map.

This map should not be construed as a survey. On-site surveys should be conducted prior to engineering or construction.

This map was compiled to meet horizontal and vertical accuracy in accordance with national map accuracy standards.

Property and utility information has been generated from readily available sources with limited accuracy checks. Property information is not intended to represent a title search of the Recorders Office record. Utility location is approximate and shows only the main lines as the service lines have been omitted for clarity. Generally, the information is current as of December 2005.

The Polarconsult, Alaska Inc. provided sanitation facility records.

This map is based on photography acquired on August 16, 2006, at a nominal scale, of 1 in = 800 ft.

AeroMetric Anchorage prepared the orthophoto and topographic mapping. The orthophoto is an aerial photo which has been corrected, by rectification to ground control stations, to remove distortions and warpage due to ground topography and aircraft tilt and trim.

HORIZONTAL AND VERTICAL CONTROL

The horizontal control monument for the digital orthophoto was an NGS OPUS solution for GPS Inc. TBM "Base 2". The horizontal datum NAD 1983 coordinates for this TBM are North 57° 07' 22.4169" and West 170° 16' 14.2732". The vertical control monument was TBM "Base 2". The Geoid 99 elevation for this station is 62.75 feet.

The Village of St. Paul has been adjusted to this control using high-precision GPS methods and the adjusted coordinates and elevation for NGS Monument "Village Hill", were calculated to establish a local control reference. The NAD 1983 coordinates for this monument are North 57° 07' 22.7526" and West 170° 16' 55.9783" and the elevation is 74.99 feet.

This map projection is based upon NAD 83, ASP Zone 9 as expressed in US Survey Feet.

The contours were prepared at two (2) foot contour intervals with index contours every ten (10) feet.

INDIAN AFFAIRS PUBLIC LAW 89-702

An act to protect and conserve the North Pacific fur seals, to provide for the administration of the Pribilof Islands, to conserve the fur seals and other wildlife, on the Pribilof Islands, and to protect sea otters on the high seas.
