

# Community Map SOUTH NAKNEK

58°41'N 157°00'W Elevation 130'

The preparation of this document was financed by a special legislative appropriation for the Department of Community and Regional Affairs, administered by the Division of Community Planning.

**Community Map** The profile maps are useful in illustrating land use patterns, land status, location of power lines, water resources, waste disposal sites, and public facilities. They also provide an understanding of some of the natural features and hazards that affect the community. This information is very important in planning for community improvements and expansion.

The Community Map shown here was prepared from an aerial photograph taken in 1979 by North Pacific Aerial Survey at a height of 8400 feet and enlarged to a scale of 1" = 300'. The Area Map was taken in 1974 by BLM at a height of 8400 feet and reproduced at a scale of 1" = 2250'.

- Industrial
- Residential
- Commercial
- Public
- Public Use Area
- Multiple Use
- Under Construction
