

Community Map TENAKEE SPRINGS

57°46'50"N 135°13'00"W Coastal Community

The preparation of this document was financed by a special legislative appropriation for the Department of Community and Regional Affairs, administered by the Division of Community Planning.

Community Map - The profile maps are useful in illustrating land use patterns, land status, location of power lines, water resources, waste disposal sites, public facilities and other improvements. They also provide an understanding of some of the natural features and hazards that affect the community. This information is very important in planning for community improvements and expansion.

The Community Map shown here was prepared from an uncontrolled aerial photograph taken in 1982 by GDM Hill, at a scale of 1" = 1000' and enlarged to a scale of 1" = 200'. The Area Map was prepared from the same photograph and reproduced at a scale of 1" = 1000'. The scale is approximate and minor distortion may exist. Property and utility information has been generalized from many sources and may contain minor inconsistencies. These maps should not be construed as surveys; on-site investigations should be conducted prior to construction.
